

# GP-1

**The Comet GP-1 High Gain Dual Band Antenna for 144MHz and 433MHz. It is a compact base antenna using Comet's SLC-system, (super linear converter) for a low loss, high efficiency antenna.**

**Wide band coverage means no tuning is necessary in both bands, and high quality fibreglass ensures waterproofing and a longer working life.**

## **Technical specifications :**

Band(s): 2 m/70 cm  
Gain: 2 m - 3 dB, 70 cm - 6 dB  
Max power: 200 W  
Impedance: 50 ohms, SO-239  
Length: 1.25 m
