

Coupler: **SG-237** Microprocessor Controlled (1.8-60MHz) 100W Smartuner

Very small SG-237 Smartuner automatic microprocessor antenna coupler with 68HC711 microprocessor. Coupler can be used within its' power rating with any SSB in range of 1.8-60 MHz. Designed for marine, mobile and fixed base applications. For antenna types: 9 ft mobile or marine whip for 3.5 to 60 MHz and 23 ft. antenna for full frequency range operation. Housed in waterproof case.

- **Number of channels:** Unlimited
- **Frequency range:** 1.8-60 MHz
- **Power rating:** 100 watts **PEP maximum:** 12VDC. operation
- **SWR:** Less than 1.4 to 1
- **Tune power:** 3 watts nominal
- **Supplied with 9 ft. cable for coaxial and DC power**
- **Waterproof**
- **Over all dimensions 6x7x1.5 inches**
- **Under 2 pounds**
