

# SEC-1212 10 Amp Switching Power Supply

These advanced switch-mode DC power supplies were designed specifically for use with land mobile radio. The power supplies produce clean reliable power and are highly filtered to suppress RFI.

### Specifications

Model#	Input Voltage	Output Voltage	Dimensions	Output	Fuse Rating	Shipping Weight Lbs.
SEC-1212	120 or 240Vac	13.8 VDC	2.4 x 7.3 x 8.7	10 Amps	3A	3.5

### Applications

Two way radio base stations  
 Communications systems  
 Security systems  
 Test equipment  
 Plotters  
 GPS receivers  
 Automotive & Marine displays  
 DC computers  
 12 Volt lighting systems  
 OEM applications

### Design Features

Advanced switch-mode technology  
 Reliable power with minimum weight and size  
 Circuit innovations minimize output voltage ripple and RFI  
 Input voltage can be set at 120VAC or 240VAC  
 UL listed to both USA & Canadian safety standards.
